## Whims: TwinLuxe - The Ultimate in Men's Skincare

By Brandon Perlman | Lifestyle, Beauty

Developed by identical twins and former Wall Streeters Anthony and Hubert Tsai, the TwinLuxe shaving collection aims, as the pair says, to “bring the barbershop experience into the 21st century.” The sleek razors and brushes were created by Marek Djordjevic, the exterior designer of the Rolls-Royce Phantom, and the product line, made from ingredients like pearl powder, white tea leaf extract and hydrolyzed rice protein, includes all of the necessities: a shaving cream, an exfoliating scrub and a series of cleansers and soothers, all paraben free. Products from \$25; shaving kits from \$790; [twinluxe.com](http://twinluxe.com).
