TwinLuxe Anti-Aging SPF Moisturizer SPF 40

5 of 6

◀ PREV

NEXT ▶

No other SPF at this strength left as remarkably smooth a face on us as TwinLuxe. It uses stem cell technology to harness the anti-oxidative, rejuvenating, and protective powers of rare Swiss apples, Edelweiss, and a flower from asia called the Buddleja Davidi. Also there's Willow Bark Extract, an excellent agent to control oil issues that often arise from SPF ingredients. If that all sounds too precious for you, then move on. Otherwise, you'll also like that it also has one of the highest qualities of vitamin C available, and is chock full of wrinkle fighting peptides. [\$48/1.67 oz.; twinluxe.com]
