TwinLuxe Renewing Face Wash & Scrub Review

As you may know, when it comes to men's skin care, your success and satisfaction depends greatly on the products you are using to take care of it. Ordinary products in the supermarket are cheap, but do not bring the quality you can expect from a great working formula. Luckily, companies such as TwinLuxe exist; companies that go the extra mile to make top quality products for men.

Today we will take a look at **TwinLuxe's Renewing Face Wash and Scrub**, as part of a series of TwinLuxe product reviews.

The renewing face Wash and Scrub was introduced by TwinLuxe as part of their recommended pre-shave routine. You just grab a small amount of the product and massage your face using circular motions with your fingers. The wash and scrub promises to smooth your skin before shaving and prevent ingrown hair. So how well does it perform?

Using the TwinLuxe renewing Face Wash and Scrub is pretty easy and effective. I personally like to use it while I am showering with hot water, as the pores open up making the cleansing process an easy task. The formula contains microbeads that are used to soften the skin. When you massage your face with it, you'll feel those microbeads, it is a relaxing sensation, especially when coupled with the wash's nice but discrete smell.

At the same time, the face wash and scrub has an integrated nourishing cleanser that leaves your skin free of glow and dirt. This translates into a very fresh feeling right after you apply it. It literally feels as if your skin is "breathing in" more air.

We've tried plenty of face wash and scrub products, and TwinLuxe renewing Face Wash and scrub is definitely on top of our list. It is a product that simply does the job and does it right. At \$38, it might not be the cheapest face wash or scrub in the market, but a cheap product more often than not brings you only "cheap results". This is not the case with TwinLuxe's formula.

Our conclusion: If you are looking for a 2-in-1 treatment for your face before shaving, you should definitely try the renewing Face wash and scrub and use it as part of your daily routine. We were lucky to get some samples – thank you TwinLuxe! – but you can find the product on the [Renewing Face Wash and Scrub web page](#).
