

TwinLuxe Anti-Aging SPF Moisturizer Review

admin October 17, 2012 Product Reviews

While TwinLuxe offers a great selection of shaving and skin care products for men, their new **Anti-Aging SPF Moisturizer** can be used by men and women of all skin types.

Even though colder weather is coming in many parts of the U.S, a moisturizer still works great to keep your skin hydrated during the winter and keep your skin looking youthful as well. A moisturizer should be used all year if you want great looking skin.

Presentation and Features

It's nice to have a moisturizer that helps reduce wrinkles and also protects your skin from the harmful sun rays. This moisturizer has SPF 40, which is very high compared to other moisturizers and a great feature since it gives a long lasting protection.

The anti-aging ingredients include buddleka davidii stems, malus domestica stem cells and avobenzone. These ingredients work together to reduce wrinkles and protect your skin from further sun and aging damage.

Reviewing the TwinLuxe Anti-Aging SPF Moisturizer

It's important to apply any moisturizer with clean and dry hands. Your face should also be cleansed and dry. The [TwinLuxe Anti-Aging SPF Moisturizer](#) comes in a pump dispenser and I found that 1-2 pumps was enough to cover my face.

The cream has a light menthol smell but it is not too strong, which is great because it doesn't interfere with your cologne/perfume. After applying it dries up in less than a minute and there is no greasy left overs. I've used it while going on easy walks, to long hikes under the sun and I didn't get any sunburn. Most importantly it prevented my facial skin from getting dehydrated after being under the sun for a long time, without the SPF moisturizer my face would have probably felt dry and itchy the next day.

As far as the anti-aging formula, I had few fine lines above my forehead and around my eyes. With the TwinLuxe Anti-Aging SPF Moisturizer this has diminished after using it for a month and since it protects against sun rays it helps prevent wrinkles as well.

Conclusion

If you want to use a moisturizer that doesn't leave your face greasy and that also doubles as a sunscreen and anti-aging product, then this is the perfect choice. This is a quality skin care product that will deliver as promised. Twinluxe was developed by brothers Anthony and Hubert Tsai. Like their other products, the TwinLuxe Anti-Aging SPF Moisturizer is non-whitening, non-comedogenic, paraben free and has not been tested on animals.
