

TWINLUXE ANTI AGING SPF MOISTURIZER

June 2, 2013 by [Lina Bessonova](#)

Summer is finally coming, and sunscreens are not something you would want to forget! No need to explain why using one is so important, right? I'd rather give you my top fave pick for now: the truly miraculous unisex sunscreen from Twin Luxe.

Hight SPF? Check. Hydration? Check. Matifying effect? Not something you would expect from a sunscreen, but yes, check. The company positions the product as anti-ageing, however, the cream's numerous benefits make it a great buy for any age.

TwinLuxe, as suggested by the name, is a male luxury cosmetics brand founded by the Tsai identical twins. The SPF Moisturizer cream was introduced last summer as the first TwinLuxe unisex product and still is unbeatable in the skincare and protection it provides on hot sunny days.
