TwinLuxe - Luxurious Skincare for the Modern Man

Shaving for many has become an unwelcomed task that can come with irritated skin and cuts. Many men who want a smooth face have ditched the razor and let their hair grow. Those who don't have that option can rely on **TwinLuxe** to save face. TwinLuxe is produced by the exterior designers of the the **Rolls Royce** Phantom and creates fine grooming products and accessories for the modern man to aid in effortless shaving, skin moisturization, and general skincare to create a luxurious experience you'll want to engage in daily. TwinLuxe's elixirs include a renewing face wash & scrub, soothing shave cream, face balm, energy mist, skin detox, and booster serums.

TwinLuxe products are formulated from Asian botanicals that are proven to improve smoothness, boost skin tone, and promote anti-aging. I personally tried the Renewing Face Wash & Scrub, Soothing Face Balm, and Instant Energy Mist and was impressed by the difference in my shaving after a couple of weeks. My in-grown hairs are fading and my skin is looking great. Also, a spritz of the energizing mist gives me a jolt of "wake up" when I need it. Try out the whole TwinLuxe line and experience a difference in your skin.
