

TwinLuxe: The Rolls Royce of Shaving Products

11/08/2010

When it's time to let your face know you've arrived, upgrade your shaving products and gear to **TwinLuxe**. The brainchild of identical twin brothers who wanted a high-performance, masculine grooming line that would cater to guys' individual skincare needs, they worked with renowned designer Marek Djordjevic, whose works include the exterior designs of the Rolls-Royce Phantom, to design the TwinLuxe tools.

Tools like their razors and brushes, which are designed and made with incredible attention to design and craftsmanship, using top-quality materials that include unbleached German silvertip badger fur, highly wear-resistant PVD coatings, and alumina ceramic. And all of that quality, just like with a Rolls, will cost you. Prices for these shaving instruments range from \$788 to \$1,588. But that doesn't mean you need big bank to get a better shave...

Products in TwinLuxe Shaving's skincare line run a much more attainable \$26 to \$76, and include a variety of multi-functional formulations that can be intermixed for a customized result. The unique line brings together a custom blend of ingredients - focusing on scientifically-proven beneficial Asian botanicals, such as Pearl Powder and Hydrolyzed Rice Protein - fused with the latest dermatologic technologies.

Products include: Smooth Shave Cream, Renewing Face Wash & Scrub, Booster Serum that helps you razor glide over your whiskers, Instant Rescue Gel to dab on any irritated areas, Soothing Face Balm, Instant Energy Mist, and Daily Detox Face Wash & Mask. I've tried them all (yes, even the Energy Mist, which I am man enough to say is surprisingly refreshing), and can tell you there's definitely an advantage to spending a little more for the best ingredients. Now if I can only convince them to send me one of those \$1000 razors to try...
