**M**ade for the man who wants to keep his essentials perfectly at hand, the shaving kit from TwinLuxe is the perfect gift for a discerning gentleman. Founded by identical twin brothers Anthony and Hubert Tsai, TwinLuxe is a comprehensive, luxury men's grooming brand that welcomes with open arms, all men who want the best when it comes to skincare. Not content to offer just the item you see here, TwinLuxe has a variety of products and tools to assure that you are kept in a well-groomed state all of the time.

"We had a vision of merging progressive innovation with precision craftsmanship to change the entire shaving experience," said Anthony Tsai. "Our Asian heritage allowed us to appreciate tradition, while our fast-paced Wall Street career taught us to find new ways to achieve ultimate performance; we bridged these learnings and created TwinLuxe, a high-performance, luxury skincare and grooming line that provides exceptional design, quality and results."

Marek Djordjevic, whose design works include exterior stylings of the Rolls-Royce™ Phantom family of cars, took the TwinLuxe Fine Shaving Instrument to task. The result is a no-nonsense collection which uses German silvertip badger fur, highly wear-resistant PVD coating and alumina ceramic. TwinLuxe Fine Shaving Instruments are available in the Chrome Edition, Anthracite Edition and Arctic Edition.
